## Augers

### Discharge Auger

Part # AD001  
The standard rubber flighted auger. Handles most materials.

### Mixing Auger

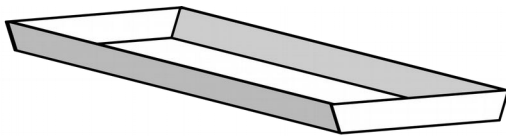

Part # AM002  
Paddles and a reinforced auger allows for concrete to be mixed directly in the bucket.

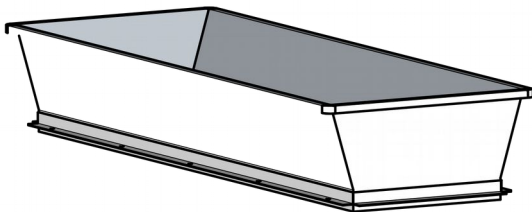

### Steel Auger

Part # AS001  
Used for discharging asphalt and dry mixtures or materials.

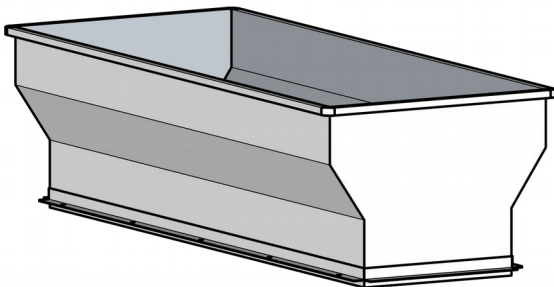

## Options

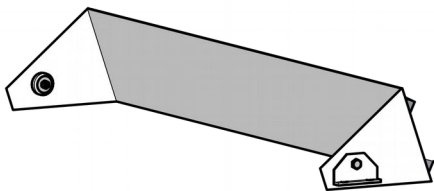

**Weld-On Cutting Edge** - For loading from frozen/hard piles.  
Part # 87137

**3/4 Yard Hopper Extension** - Increases the capacity of the auger bucket from 1/2 yard to 3/4 yard. Bolt-on.  
Part # 87134

**1 Yard Hopper Extension** - Increases the capacity of the auger bucket from 1/2 yard to 1 yard. Bolt-on. For tractors with skid-steer loader mount only.  
Part # 87133

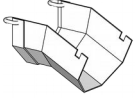

**Spill Guard** - Keeps material from spilling when traveling with a full bucket. Bolt on.  
Part # 90001

**Chute Angle Increaser**  
Part # 87141

**24" Chute** - Multi-link chutes. Auger Bucket includes 1 by default.  
Part # 87139

**36" Chute** - Multi link chutes. Auger Bucket includes 1 by default.  
Part # 87140

**Hose Adapter** - Can be used for slurry mix, filling block walls, etc.

4" Hose Adapter (Right) - Part # 87136  
6" Hose Adapter (Left) - Part # 90224

## Specifications

Model	3000 Series
Length	73.5"
Width	22.5"
Height	29.5"
Weight	380 lbs.
Volume	13 cu. ft.
Volume – Incl. Extension	28 cu. ft.
Min. Hyd. Requirements	12 GPM
Auger Length	61.5"
Auger Diameter – Without Rubber	4.0"
Auger Diameter – With Rubber	6.5"
Flighting Spacing	4.0"

Specifications and designs are subject to change without notice.
