

PALLET FORKS

For Skid Steer Loaders

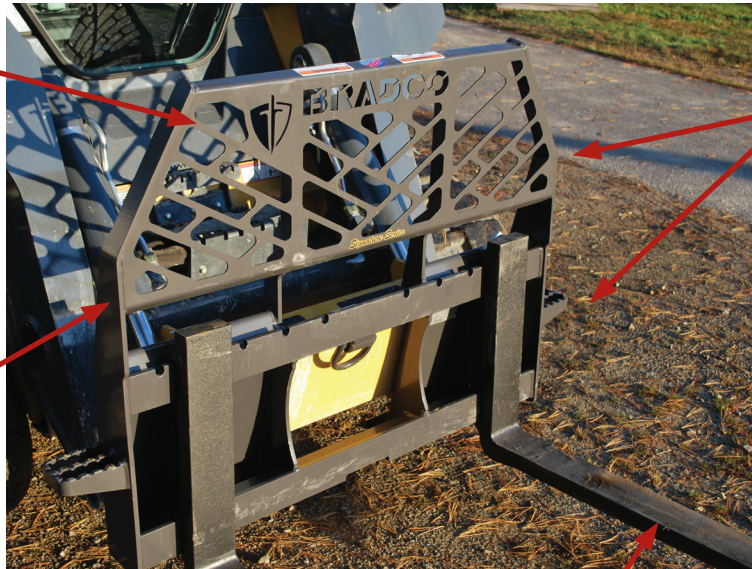

Bradco Pallet Forks feature heavy-duty frames designed to handle up to 6,200 lb. fork capacities without taxing the loader's power or lift capacity.

- Lever style locks provide additional leverage when operating the tine latching mechanism
- Patented pull "D" ring design can be used to pull loads out of trucks, retain loads, and much more.
US Patent # 6,881,023
- Excellent see through visibility allows the operator to see tine ends
- Standard, Extended, Walk-Thru available
- NEW Walk-Thru carriage design has an open frame for easy, safe access to operator compartment on loader

PALLET FORKS

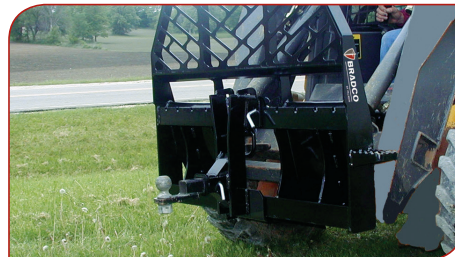

Heavy gauge brick guard offers outstanding strength and smooth surfaces for protection against load damage

Angled side corners and step for easy and safe side access in and out of operator

Heavy-duty frame designed to handle up to 6,200 lb. capacities depending on tine option

42", 48", 60" & 72" tines and block tines available
