SNOW REMOVAL

SNOW REMOVAL

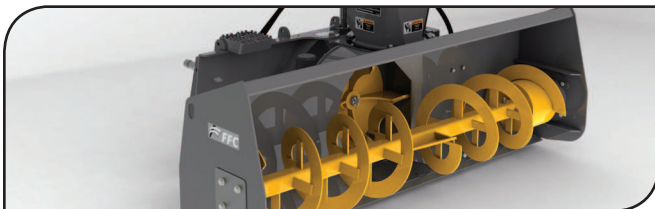

For skid-steer loaders, utility loaders, wheel loaders, & backhoe loaders.

FFC provides a variety of snow removal attachments that will get the job done right. So whether you push, pull, or blow snow, FFC has the tools you need.

The FFC Snow Push quickly removes even the heaviest snow without leaving windrows, and with the optional Pull Back Kit, the Snow push gets next to fences and buildings to pull snow away cleanly.

The FCC Snow Blower throws snow as far as 45 feet, features a poly-lined chute and deflector for faster adjustments, and never requires a case drain.

The FFC Snow Bucket provides yet another exceptional tool for your snow removal needs.

With 16 Snow Blade models to choose from, there's an FFC snow Blade that's ideal for your machine and the job. The "New" Trip Edge Blade is also available with a floating tilt which allows for cleaner snow removal across uneven roads.

- 1 year warranty on structure
- 6 month warranty on hydraulics

Specifications		115 Series		
Model #	Width OD	A Height OD	Angled Cut Width	Weight (Approx)
11584	84"	32"	69"	1,135 lbs
11596	96"	32"	79"	1,172 lbs
11508	108"	32"	88"	1,240 lbs
11520	120"	32"	98"	1,308 lbs
11532	132"	32"	108"	1,376 lbs
11544	144"	32"	118"	1,446 lbs

Carrier Specifications:
lift capacities <11,000 lbs
operating weight <20,000 lbs

SNOW BLADE

Continued

115 Series angles 35° in either direction hydraulically. Equipped with a ten gauge steel blade. Optional flap which reduces snow spillage. For Large SSL, Compact Utility Loaders, Small Wheel Loaders and Backhoe Loaders.

Models 114, 5700, and 115 are all installed with:

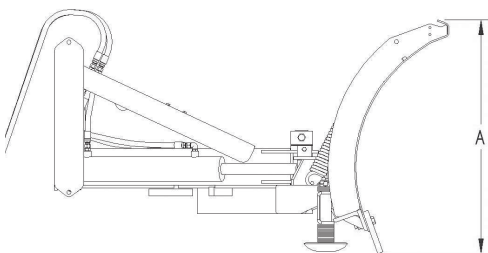

- Replaceable wear edge (Optional rubber edge)
- Adjustable skid shoes
- Spring-loaded trip mechanism

126 Series has a cutting edge trip system that allows operator to glide over manholes and curb obstructions without losing gathered material. Angles 30° in either direction hydraulically and has adjustable skid shoes. Equipped with reversible high carbon steel bolt-on edge. 6° floating tilt allows for cleaner snow removal across uneven roads. For Skid-Steers.

Specifications		126 Series		
Model #	Width OD	A Height OD	Angled Cut Width	Weight (Approx)
12672	72"	32"	62"	1,056 lbs
12690	90"	32"	78"	1,122 lbs
12602	102"	32"	88"	1,165 lbs
12619	119"	32"	103"	1,226 lbs

Carrier Specifications:
lift capacities <9,500 lbs
operating weight <11,000 lbs

IMPORTANT: All replacement hydraulic hoses and fittings must have a minimum rated working pressure of 4000 psi. Hoses and hydraulic couplers from the attachment to the loader are included for skid-steer only.

Subject to change without notice.
