NEW POWER DRIVE SERIES

INTRODUCING THE

POWER ⚡ DRIVE

SERIES

THE NEXT GENERATION STARTS **HERE.**

A New Standard in Standard-Flow Performance.

- For over **25 years**, our auger drives set the standard but today's skid loaders demand more.
- As skid loader hydraulics advanced, Premier Attachments developed an all-new Power Drive lineup engineered for today's machines.
- A proprietary American made planetary gearbox and high-reliability hydraulic motors deliver higher torque and smarter operating speeds.
- Industrial-grade durability is achieved without requiring high-flow hydraulics.
- This is not an update, it's a complete reset of auger drive performance.
- The **H020, H025, H030, and H035** are now our standard auger drives, providing a true step beyond legacy capabilities.

An Evolution Built on Proven Performance

The H010, H015, H019, & H024 established the foundation for our auger drive line.

Building on that success, Premier's Power Drive Series now define our standard offering moving forward.

Model #	Max Auger Bit Dia.	GPM	RPM	PSI	Torque
H020PD	30"	12	58	2500	1592
		15	72	3000	1911
		17	82	3500	2229
		20	96		
H025PD	36"	12	39	2500	2350
		15	49	3000	2820
		17	55	3500	3288
		20	65		
		25	82		
H030PD	36"	15	39	2500	2968
		18	47	3000	3561
		20	52	3500	4155
		25	65		
		30	78		
H035PD	42"	20	41	2500	3724
		24	50	3000	4469
		26	53	3500	5214
		30	62		
		35	72
