AUGER ADAPTERS

Adapters couple McMillen Drive Units to competitive augers or McMillen Augers to competitive drive units. Determine drive unit output shaft and collar opening sizes and types (round or hexagon) to select proper adapter.

FIXED LENGTH AUGER EXTENSIONS

Fixed length auger extensions extend the augers digging depth to exactly the length of the extension. McMillen Fixed Length Extensions are available with 2" round, 2.5625" round, 2" hexagon, 2.5" hexagon or 2.625" hexagon collars. These extensions do not store within the auger.

VARIABLE LENGTH AUGER EXTENSIONS

Variable length auger extensions store inside the center tube of the augers that are 10" diameter or larger. Extension increments are every 6" on 12" through 24" extensions and every 12" on 48" 72" extensions. Variable length extensions are available with 2" round, 2.5625" round, 2" hexagon, 2.5 hexagon, or 2.5625" hexagon collars.
