Converting New PUB Cores to Old style PUB's

Parts Needed:

- A) 1 x 10230VW - Broom Drive Flange Weldment
- B) 1 x 8398VP - Pick up Broom Cap Motor End
- C) 1 x 9107VW - Drum Engagement Plate Weldment
- D) 1 x 10778VW - 60" PUB Core
- E) 1 x 10736VW - 72" PUB Core
- F) 1 x 10789VW - 84" PUB Core

Instructions:

1. Refer to PUB manual for instructions on Core removal and Core reassembly.
 2. New Cores are pre assembled with (9107VW) at the factory.
 3. PUB Broom Cap Motor End (8398VW) can be removed from motor side and moved to the Bearing side
 4. Angle Broom Shaft (7917VP) can be removed from old PUB Core
 5. PUB Core Cap Weldment (8399VW) can be removed
 6. 1 x Broom Drive Flange Weldment (10230VW) can be removed
- Cores are not backward compatible as a stand alone part. Can be backward compatible if used with 9107VW.

Obsoleted parts:

7917VP - Angle Broom Shaft

8399VW - PUB Core Cap Weldment

10230VW - Broom Drive Flange Weldment now quantity one.

8398VP - Pick up Broom Cap Motor End still used but now on bearing end (was on motor end).
